PIPER

The Food-Focused Equipment Company

Cabinets

Piper engineers take the extra steps needed to ensure the highest-performing, most reliable products in the field. Not only is each piece of equipment produced by skilled craftsmen who use the most durable components available, every product is also rigorously tested before shipment. The resulting quality is apparent—down to the last detail.

Aluminum Tray Delivery Carts

Steam Table Pans, Meal Trays, & Bun Pans - all in one durable cabinet

Our Tray Delivery Carts are designed to hold both 14"x18" and 15" x 20" trays together and are available in multiple capacities from 5 to 10 trays. Our double units hold up to 20 trays and additionally handle 12" x 20" steam pans and 18" x 26" sheet pans.

- Single depth units hold one tray per shelf, double units hold two trays per shelf
- Tray slides are fixed at 6" apart
- Standard push handle
- Drain included in base for easy cleaning

900 Series Transport Cabinets

Strong, practical and versatile; our most popular cabinets

The industry standard in transport cabinets is the 900 Series from Piper. Perfect for transport, storage and catering, and available in six different sizes.

- Double pan top features two nested panels, welded together to create the strongest top in the industry
- Includes our signature Piper Base
- Convenience features include a transport latch, a side door latch to hold door in open position, and a handy card clip
- 1/2" diameter extruded rod keeps cabinet square
- Six different capacities, from 18 to 41 full-size sheet pans.

Storage Cabinets

Available in stainless steel or aluminum

Our Model 540 aluminum storage cabinet is a lightweight version of our transport cabinet - utilizing the same construction techniques for lasting durability.

- Continuous welded edge along length of side glides
- .080" aluminum bottom with reinforcing caster channels
- Corner gussets strengthen the vertical extrusion
- Side door latch keeps door open and out of the way
- Holds up to forty 18" x 26" sheet pans

The 7773 Cabinet is constructed of stainless steel reinforced at the corners and base for added rigidity.

- 4 removable shelves, adjustable on 2" centers
- Optional single or double-reinforced shelves for extra strength
- Available with 6" legs (-B) or as a mobile cabinet with 5" casters (-M)
- Heavy duty locking package available for correctional facilities

Display Cabinet

Attractive and functional, in front or back of the house

The ER-18 is perfect for storage and display, and is easily cleaned with removable racks and a smooth, shiny finish.

- Adjustable vent at top of unit to relieve excess heat and moisture
- Glides are spaced at 3-1/4" and are removable for cleaning
- Doors are Lexan with an extruded aluminum frame for strength and clarity
- Doors can be hinged left or right

Interior racks are easily removed for cleaning and maintenance

Adjustable vent on top of unit vents heat & moisture

Heated Cabinet/Proofer

Aluminum, Insulated, Non-Insulated and Universal

The same construction and materials used on our 900 series cabinets can be found in our heated units too.

- Heater box can add heat or humidity as desired with individual controls and is easily removed for cleaning
- Digital temperature read-out for accuracy
- Controls accessible when door is closed
- Stainless steel 1 gallon water pan
- Blower sends air up rear vent stack for even distribution of heat and humidity
- 60 minute timer
- 120 volt, 12.5 AMP, 1500 Watts

Universal models hold 12x20 steam pans and 18x26 sheet pans simultaneously

Stackable Cabinets

Modular system that provides unmatched versatility and space management

- .125" solid bottom fits easily over other transport cabinets
- Double pan top features two panels fully welded to create the strongest top in the industry
- Same construction and features as our 900 series cabinets
- Works well with 918, 922 or the 2-2128 dolly.*
