Values of the cutting discs

- Drawing cut
- Antimicrobial and HACCP-friendly
- No risk of oxidation and deformation in the dishwasher

RAZOR SHARP REASONS WHY

The Brunner-Anliker name stands for high-quality products. All of our machines have the following impressive characteristics in common:

Drawing cut for optimal nutrient retention and cut products that stay fresher longer

Technical innovations provide the highest levels of FoodSafe technology and hygiene

Simple operations for user comfort and easy cleaning

Quality "Swiss Made" product, your guarantee for innovation, precision, durability, and reliability

Customer values

- Output of up to 600 lbs.
- Cutting attachment made of solid cast stainless steel
- Slower RPM's at 336 allows for cutting of soft produce without damage
- 52 different slicing options
- World first - antimicrobial and HACCP-friendly cutting discs made from composite
- No risk of oxidation and deformation of the discs in the dishwasher
- Simple, switchless operation
- Optimum user comfort thanks to ergonomically correct 45-degree position
- Maintenance-free and service-free induction motor and gear unit
- Two-year parts and labor
- Five-year warranty on motor and gear ONLY

Technical data

Voltage 115V-60HZ-1 Phase, 3 amps
Motor 1/2 HP
Weight 48.28 lbs.

Protection class IP 26
Dimensions 29.92"L x 14.57"W x 16.93" H
Certifications CE, UL, NSF, CSA, CB, CoC, S+

Swiss quality machines for professional food processing

The company

Brunner-Anliker is the leading manufacturer of machines for cutting, chopping, grating, grinding and declumping food-stuffs. Our 80 staff manufacture high-quality products in our plant in Switzerland (Ticino), which are then sold around the world.

Drawing cut

The unique cutting geometry of our «drawing cut» prevents the unnecessary loss of nutrients and vitamins. Thanks to this biotechnological method and the hand-ground blades, the cell structure of even the most delicate fruits and vegetables is barely affected. This then leads to a significantly longer shelf life for the processed products.

Our quality promise

Brunner-Anliker appliances for professional applications work precisely and reliably while offering optimum user comfort. Thanks to their durability and reliability, they are often used for generations in many companies. Our machines comply with the most stringent safety aspects and are easy to operate and clean.

Quality Swiss products

Brunner-Anliker machines are a shining example of Swiss innovation, precision, durability and reliability. From development right through to production and sales, all processes are carried out in the Brunner-Anliker branches in Switzerland.
