

the Piper Focus

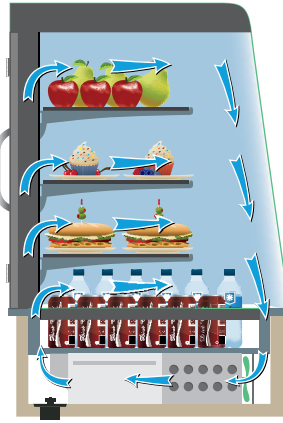

You Need an Omnitop! Omnitop Refrigerated Display Cases

Our OTR series cabinets come in a variety of styles and sizes to fit your needs. They are available in 3 different lengths and can be ordered as a drop-in, or as part of our Elite series to interlock directly into your cafeteria lineup. They are also available without the condensing unit for remote refrigeration applications. Their unique design allows 24 hour display capability, eliminating the daily labor of loading and unloading product. They incorporate tempered glass and stainless steel in a modern and attractive design that is lit with LED lights, putting the focus on the food in typical Piper fashion. Storage capacity is highlighted by 14" deep adjustable shelves, and bottom wells that can accommodate drinks, salad bowls, or 4" deep steam pan containers. For added security, roll-down night curtains are available.
