

# the Piper Focus

## Elite 3-ST with Berkeley Hot Plate

Great Cafeteria and Buffet options featured at NAFEM

The Elite brand from Piper is our most popular line of cafeteria equipment, and its most powerful attribute is durability. 14 gauge stainless steel corner posts sit on a rugged foundation of 14g aluminized steel caster channels with an 18g stainless steel bottom shelf. The top is constructed of 14g stainless as well, with 20g body panels. It is truly built to last. Additionally, the modular design of Elite allows for complete flexibility. Units can be made any length up to 114", any height, and any depth, ensuring a perfect fit for your cafeteria. They are available with multiple styles of hot wells, cold wells, solid tops, refrigerated display cases and more.

Then choose from a multitude of options including tray slides, cutting boards, protector guards and door styles, among others, to completely customize your cafeteria.

Elite from Piper will give you the flexibility you need to provide the best service for your customers, and the durability to do it for years to come.

To explore our entire catalog of food-focused equipment, visit [www.piperproducts.com](http://www.piperproducts.com)

The NAFEM Elite 3-ST is shown with Hi-Macs® solid surface top and tray slide, Berkeley Hot Plate, PMG Protector Guard, laminated panels and transparent cover panel highlighting our custom wire chase system.
