

the Piper Focus

Our Artisan Bread Shelves are available in open and closed configurations

Enclosed self-service display is ideal for bread, pastries, donuts, bagels and rolls.

Display your bakery items in style with Piper's Artisan Bread Shelves. You are sure to find the right look with the array of models and options available. Choose from our enclosed models to keep your self-service items fresh. They come standard with 2" oak wood slat shelves that can be displayed at 3 different angles. Each shelf is individually lit with LED lights. Doors are 1/4" thick tempered glass. The cabinet itself may be finished in any laminate color of your choosing. Then add options like mirrored interior panels, tissue holders or extra shelves.

Choose open shelving for pre-wrapped breads and rolls.

When you need to display pre-packaged items, choose from our open shelf designs. They utilize the same adjustable oak wood shelves and lights as our enclosed models, and offer the same options and accessories. Both open and enclosed units are available in lengths from 3-foot through 6-foot, and in hi- or low-profile heights.
