## Our Racks are so darn Awesome

that you'll never have to toss 'em!

So many Racks for you to choose from,  
So read this list and maybe choose some!

Angle Racks and Channel Racks and Nesting Racks abound.  
They can be fully welded, but they also ship knock-down.  
Some are Side Load, others End, and some are Universal.  
Some will even hold your tray while you are at rehearsal!

Aluminum or Stainless steel is how we like to build 'em. Our welders make them extra-strong so you can over fill them. Every seam is fully welded, not just tacked in tiny places. Our racks will last so long that you'll have smiles on your faces. We have open-bottoms, solid bottoms and bottoms that like to nest. And the casters are so perfect that they make our racks the best!

So, go online and check us out, I'm sure you'll be surprised. We have so many things to find that it will open up your eyes. Just click this link and we will take you, much faster than a jet, to a world of great equipment at [piperonline.net](http://piperonline.net).
