## Single or Double Roll-In Proofers

Simple, Reliable, and Durable for your high-capacity kitchen

RIP-1 shown with optional roll-in rack and digital controls

The RIP-1 and RIP-2 roll-in proofers from Piper are built to last and designed for simplicity. Just 2 controls are necessary - one for temperature, and one for humidity - that's it! And since automatic humidity is standard you'll never have to worry about filling a water pan again. All you will ever need to do is load your rack and roll it in. Call Piper and order your roll-in proofer today, and start enjoying the benefits of efficient design.

### Standard Features:

- Automatic humidity
