

the Piper Focus

Ride the Wave!
A Seaside Elementary School Inspired by Nature

Port Isabel is a small town deep in the south of Texas with a rich nautical history dating back to 1519. Tales of undiscovered pirate treasure on nearby South Padre Island add to the maritime mystique. Port Isabel Elementary School wanted to bring a bit of the ocean into their new cafeteria, and Piper was happy to oblige. We designed and created an 8-piece line-up with our Elite Series Serving Equipment. Vinyl decals of abstract waves that swirl along the surface were added to the white-laminated front and add a sense of watery whimsy to the dining room. Solid ribbed tray slides and classic style protector guards look like stainless steel ships riding the waves. The entire ensemble creates a fun environment that pays tribute to the city's rich culture with simple custom decals.

You can bring fun and excitement to your equipment by adding decals to your lineup too! Add school mascots, logos, stripes or polka dots. Whatever you can imagine. Call our design team today, or visit www.piperproducts.com to view our product galleries.
